FLOW

KROHNE

Electromagnetic for liquid flow.
Mass Coriolis for liquid, gas or slurry flow.
Ultrasonic custody transfer: gas, liquid or slurry. Vortex for steam, liquid or gas flow.
Variable area for liquid or gas. Flow controllers.

BADGER METER/DATA INDUSTRIAL

Insertion and in-line flowmeters.
BTU monitors and transmitters.
Ultrasonic transit time and doppler flow meters.

VORTAB COMPANY

VORTAB flow conditioners.
Vorel 90 degrees elbow flow conditioners.
VIP insertion panel flow conditioners.

CUSTOMER SERVICES

Onsite and factory calibration, field service, site survey, onsite training and lunch & learn.

POSITION AND ROTATION

TE CONNECTIVITY/ CELESCO TRANSDUCER PRODUCTS

Cable extension linear position transducers, including rotary and encoder based position transducers. Linear pots and OEM transducers.

PRESSURE/TEMPERATURE/LEVEL

CECOMP

Digital pressure gauges, I.S. design packages, sanitary alarms and communication output, battery powered or hard line powered on-board memory storage and loop powered.

KELLER AMERICA

Submersible level and pressure transducers.
Threaded and OEM pressure transducers.

ITT NEO-DYN

Pressure and temperature switches.
Threaded, flush sanitary and OEM styles.

KROHNE

Radar, TDR guided radar, ultrasonic, magnetic level, thermocouple, RTD, thermowell.

PROCESS CONTROLS & AUTOMATION

T.E./MEASUREMENT SPECIALTIES

Accelerometers, AC or DC, LVDT and force.
Torque, miniature pressure transducers.
Tilt sensors and inclinometers.

VIBRATION

METRIX INSTRUMENT COMPANY

Vibration transmitters, switches, accelerometers, velocity pickups, proximity probes. Vibration shakers and portable meters. API 670 compliant machinery protection.

GAS DETECTION

SENSIDYNE

Fixed gas detectors for ambient air.
Combustible LEL, oxygen and toxic gases.
Sample draw systems. Single and multi-channel monitors. Flame detectors and open path gas detection.

PROCESS CONDITIONING & ANALYSIS

ABSOLUTE PROCESS INSTRUMENTS, INC.

Signal conditioning modules to convert, rescale, isolate, split, transmit and alarm.

KROHNE

Process water and chemical liquid analysis.
Protein, fat, lactose, total solids analysis.
Viscoline in-line viscosity analyzer.
