## FLOW

### KROHNE

Electromagnetic for liquid flow.  
Mass Coriolis for liquid, gas or slurry flow.  
Ultrasonic for custody transfer: gas, liquid or slurry. Vortex and variable area.

### FLUID COMPONENTS INT'L (FCI)

Thermal mass flowmeters.  
Insertion and in-line flowmeters.  
Multi-point thermal mass flowmeters.  
Liquid and gas flow/level/temperature switches.  
Vorab & VIP flow conditioners.

### BADGER METER/DATA INDUSTRIAL

Impeller, ultrasonic transit time & doppler flow.

## PRESSURE & TEMPERATURE SWITCHES

### ITT NEO-DYN

Industrial, sanitary, hazardous area.  
Threaded and OEM styles.

## CUSTOMER SERVICES

Onsite and factory calibration, field service,  
site survey, onsite training and lunch & learn.

## POSITION AND ROTATION

### TE CONNECTIVITY/ CELESCO TRANSDUCER PRODUCTS

Cable extension linear position transducers,  
including rotary and encoder based position  
transducers. Linear pots and OEM transducers.

## PRESSURE/TEMPERATURE/LEVEL

### KROHNE

Radar, TDR guided radar, ultrasonic magnetic level,  
thermocouple, RTD, thermowell.

### CECOMP

Digital pressure gauges, I.S. design packages,  
sanitary, alarms and communication output, battery  
powered or hard line powered on-board memory  
storage and loop powered.

### LUMASENSE/ADVANCED ENERGY

Portable and fixed infrared thermometer systems.  
Mikron Impac pyrometers. Thermal imaging solutions.

### L & J TECHNOLOGIES

L & J Engineering - level gauging solutions.  
Radar gauging products and servo gauging.  
Shand & Jurs - tank fittings and valves.  
Delavan-Sold + Liquid Point Level.

### KELLER AMERICA

Submersible level and pressure transducers.

## VIBRATION

### METRIX INSTRUMENT COMPANY

Vibration transmitters, switches, accelerometers,  
velocity pickups, proximity probes and shakers.  
Transmitters and controllers.

## PROCESS OBSERVATION

### LJ STAR, INC.

MetaGlas sight windows and clamps.  
Process lighting, sanitary fittings.  
Visual flow indicators and sight glass.

## PROCESS CONTROLS & AUTOMATION

### TE/MEASUREMENT SPECIALTIES

Accelerometers AC or DC, LVDT, force,  
torque, miniature pressure transducers, level.

## INTERFACE, CONDITIONING, ANALYSIS

### MTL INSTRUMENTS

Intrinsically safe isolators, zener diode barriers,  
surge protection, Hart and FF multiplexers, HMI's,  
industrial network solutions. Hi-tech gas analyzers.

### ABSOLUTE PROCESS INSTRUMENTS, INC.

Signal conditioning modules to convert, rescale,  
isolate, split, transmit and alarm.

### SENSIDYNE

Fixed gas monitors and sample draw systems.  
Combustible LEL, oxygen and toxic gases.

### KROHNE

Process water and chemical liquid analysis.  
Protein, fat, lactose, total solids analysis.  
Viscoline in-line viscosity analyzer.
